Regeneration Happens

In Nature Regeneration Happens All Around Us

Moose, elk and deer grow new antlers every year

Starfish, lobsters, lizards, along with some fish and insects can regrow arms, legs, tails & fins

... However we do not promise to grow new limbs

Humans have amazing regenerative capabilities

Two thirds of the Human liver can be removed
and it can regrow within? How long?

It can regrow within three weeks

Mesenchymal Stem Cells

**STEM CELLS AND GROWTH
FACTORS ARE ONLY PART OF
THE TREATMENT**

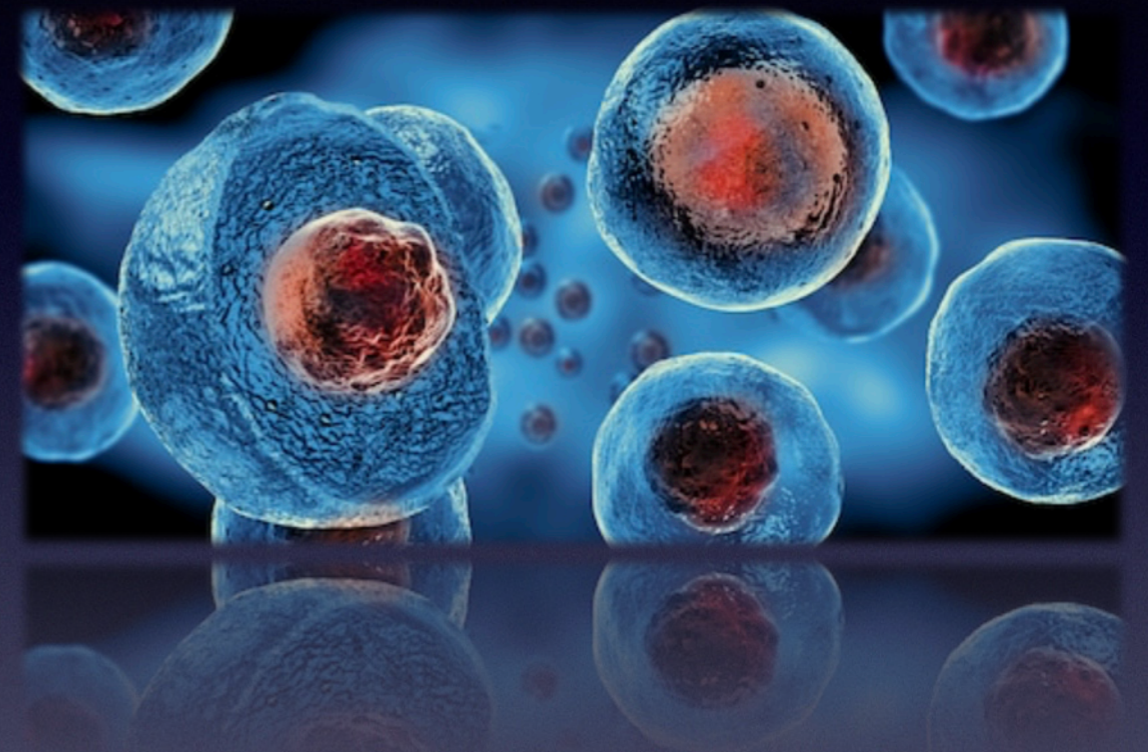

**THERAPIES & NON-INVASIVE
MEDICAL PROCEDURES ARE
THE BALANCE OF THE
SOLUTION**

Sources of Stem Cells

- **Embryonic (we would never use these are from an aborted fetus and illegal to use in the USA)**
- Bone Marrow (invasive harvesting from your own body)
- Adipose Tissue (Fat tissue from your own body)
- Blood (can contain disease, must be exact blood type match)
- Umbilical Cord Blood (must match Blood types, can transmit disease)
- Umbilical Cord Tissue (**Wharton's Jelly**)

WE USE WHARTON'S JELLY DERIVED STEM CELLS

- **Mesenchymal Stem Cells derived from **Wharton's Jelly****
- **Highest concentration of Stem Cells, Cytokines and Growth Factors**
- **Immune system privileged, no potential for allergic or adverse reactions**

- **Safest and least invasive way to receive regenerative therapy**

**OUR STEM CELLS ARE FROM THE
FDA REGISTERED LABORATORY
PREDICTIVE BIOTECH
WHICH FOLLOWS ALL
FDA SAFE PRACTICES**

- **Cryopreserved To Guarantee quality and quantity of Healthy Live Cells**

**WE TREAT KNEE, HIP,
ELBOW, ANKLE, FOOT,
HAND, LEG & SHOULDER

NON STEROIDAL ANTI-INFLAMMATORY DRUGS

Excess use of Ibuprofen causes
permanent liver damage

Most common response by traditional medicine

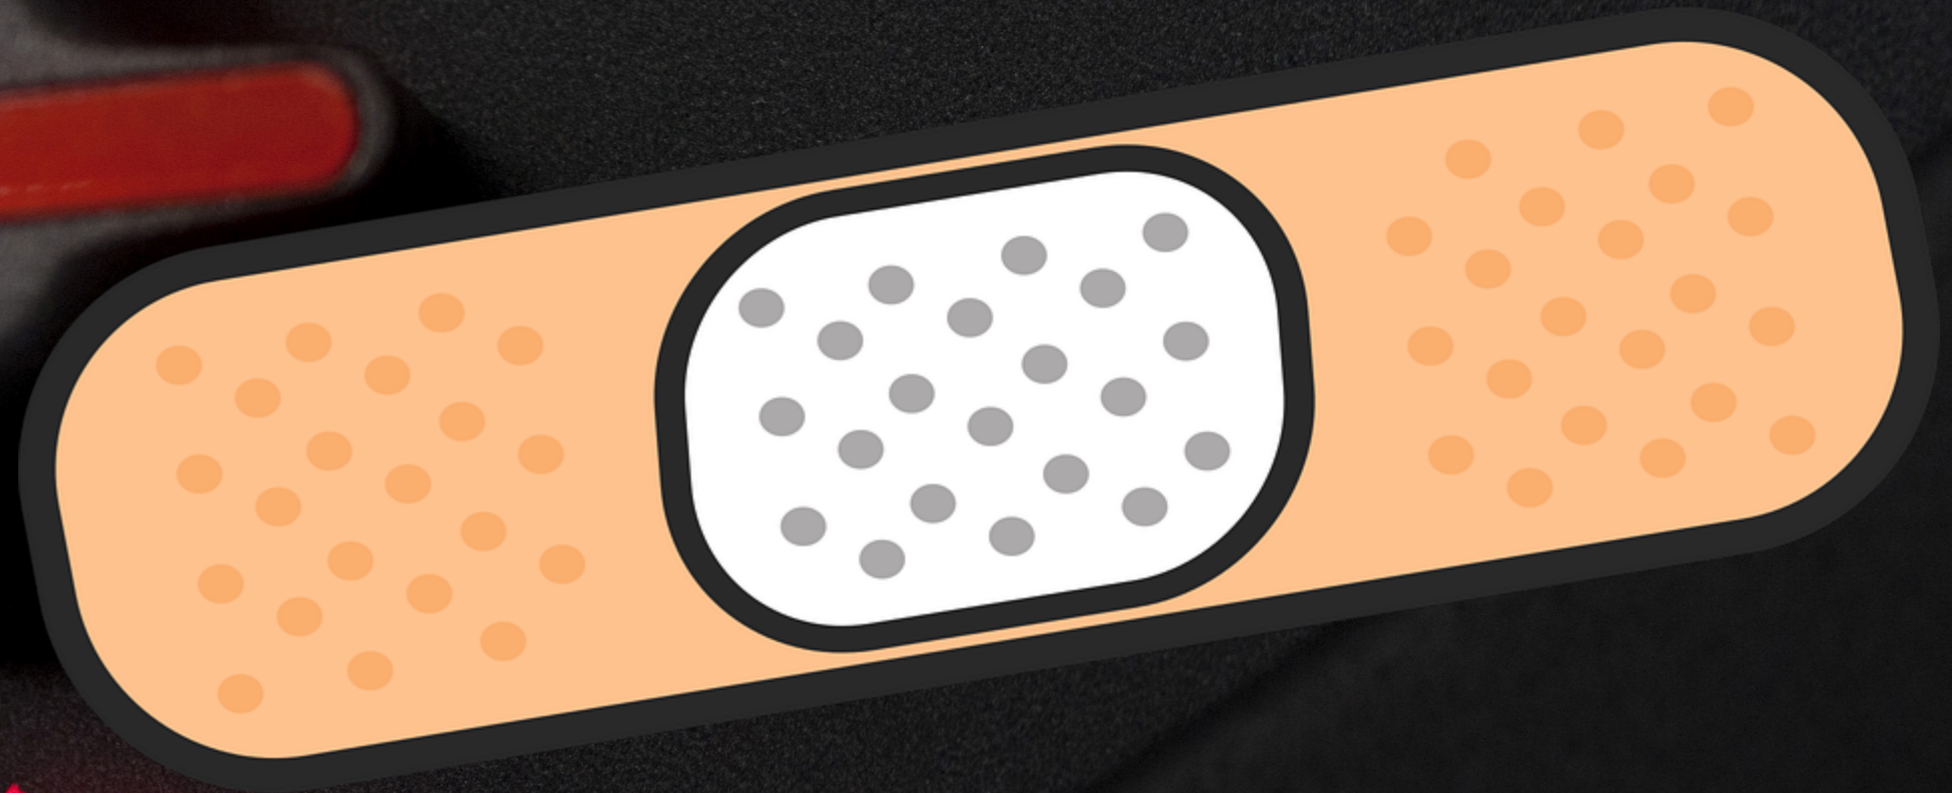

CORTISONE SIDE EFFECTS

original equipment

PAIN, NUMBNESS, BURNING, TINGLING

AMPUTATION FACTS

- One of the most feared complications of the disease
- Each year there are around **86,000** neuropathy related amputations

HORIZONTAL NERVE THERAPY

- Stimulates nerves so the body can pinpoint damage
- Promotes nerve repair
- Improves Nerve Function
- Reduces Pain

EXTRACORPOREAL SOUND WAVE

Acoustic sound waves
penetrate deep into joints

Removes scar tissue

Stimulation of injured
tissues

Growth activation and
recruitment of stem cells

Hyperbaric Medicine has been proven to work

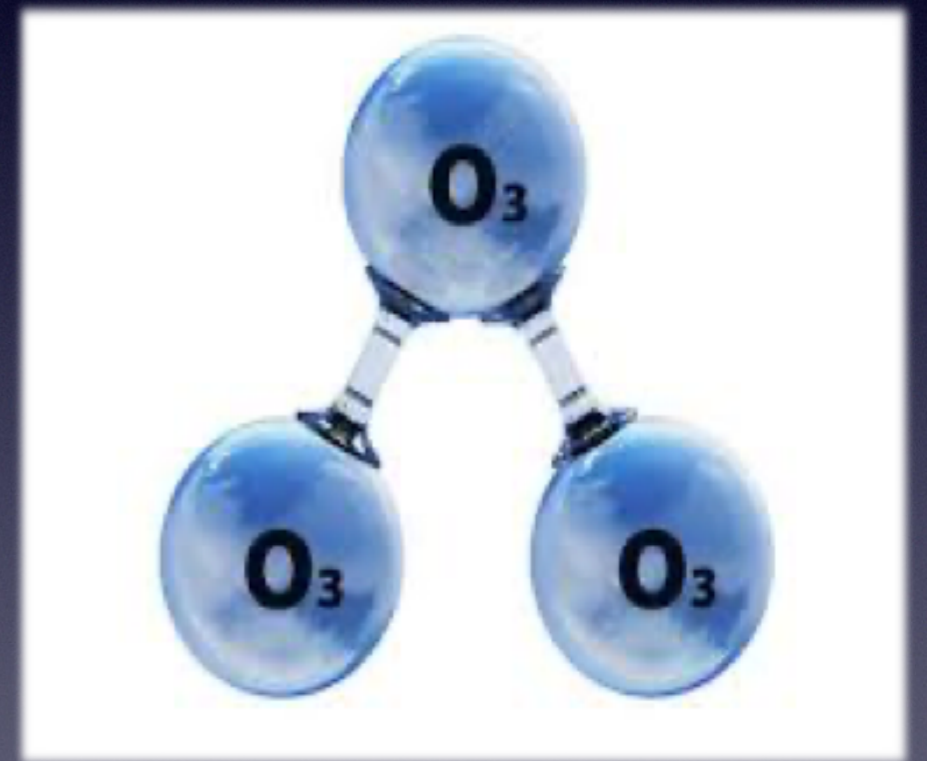

After one year
traditional medical
treatment

After only
three
weeks of
Hyperbaric
treatment

After six
weeks of
Hyperbaric
treatment
Fully
Healed

OZONE

- *Oxygen based injection*
